

Audio/Video Systems

Audio/Video Systems

Koorsen Fire & Security has built one of the finest audio/video (A/V) teams in the Midwest. We have trained and certified salespeople, engineers and technicians. Whether it's a small office paging system or a pro-audio system for a 20,000 seat venue, no project is too large or too small. We can provide the system you need.

Koorsen Fire & Security is an authorized dealer of the top names in A/V. Our manufacturers include Crown, Community, JBL, Rane, Bose, Shure, AKG, EAW, Soundcraft, Sanyo, Electro-Voice, Peavey, Denon, Draper, TOA, Telecor, RCA and many other top lines.

Why Choose Koorsen Fire & Security For Your Audio/Video Needs?

- National Institute for Certification in Engineering Technologies (NICET) certified design engineers on staff.
- Acoustical modeling to ensure proper sound coverage.
- System calibration using state-of-the-art test equipment.
- Complete turnkey installation of the highest quality.
- Ability to complete project of any size very quickly.
- Common sense approach to meeting a customer's needs (in addition to focusing on the scientific side of A/V).
- A reputation built on quality, efficiency and value.

Koorsen Fire & Security understands competition is tough in the A/V market. We know it's attention to details that separate us from this competition. That's why we have established strict standards in our installation division. Whether it's securing a bundle of wires (that may never be seen by a passerby) or ensuring properly rated hardware to hang a 500-pound speaker cluster above a congregation, we focus on the details.

We provide full services (whether we installed your system or not) for moves, add-ons and changes of your existing audio systems. We have trained service technicians who can tune and test your system to maximize its operation, and to prevent down time during important events.
