

# CCTV/Video Surveillance

## CCTV/Video Surveillance

Closed circuit television (CCTV) gives you the ability to view and record events in multiple areas of your facility. It is used frequently as a management tool for addressing all elements of business – from customer service to employee productivity. CCTV can positively impact your business by improving your operations and minimizing your risk.

### CCTV Products

Koorsen Fire & Security can provide and service the latest CCTV products, including:

- Digital video recorders
- High-speed domes
- Day/night cameras
- Wireless video equipment
- Monitors
- Multiplexers
- Matrix switchers
- Attack resistant enclosures
- Remote video transmission equipment

Koorsen Fire & Security specializes in the installation of high quality customized video surveillance systems. Our CCTV systems address a wide number of security needs, including monitoring people, places, inventory and actions. Whether it involves a single camera or hundreds, our state-of-the-art components provide a complete, dependable system.

If you currently have CCTV/video surveillance in use, we can identify your requirements, analyze your concerns and evaluate your operations to determine an effective solution for your specific needs. We have a staff of highly trained service technicians who can assist with camera replacement, VCR cleaning, system analysis and repairs.

We can provide a new system or repair and maintain your current system. Let Koorsen Fire & Security be your full service security provider. Our goal is your complete satisfaction.
